

Premiere Pediatrics
Policies for refilling ADHD & ADD medications

PLEASE READ THIS FORM CAREFULLY.
THIS FORM MUST BE SIGNED AND RETURNED BEFORE YOUR
NEXT PRESCRIPTION CAN BE REFILLED.

There has been a lot of confusion in the past on our refill policy on Attention Deficit Disorder prescriptions.

1. The state requires that controlled prescriptions be refilled within 30 days. If your prescription is past the time limit, you must bring it back to us before we will write a new one.
2. We require 1-2 business days to write the prescription. This is so that the doctor can look over the chart and verify all medication and dosage. Please do not call for the prescription refill and expect the prescription to be ready with in a few hours.
3. We REQUIRE a complete physical exam every year with us; If a physical is not done every year we will not refill any medication until the physical is complete.
4. Follow up visits need to be done every 4 MONTHS. This is so the physician can discuss and evaluate any concerns that you may have concerning your child.
5. Most of these medications CANNOT be called in. THIS IS STATE LAW. Most ADHD/ADD medications are controlled substances and can not be called into a pharmacy.
